

SACHINDU KAVISHKA

Backend Developer | .NET & ASP.NET Core | Spring Boot | Mobile Apps

Negombo, Western Province, Sri Lanka | +94 76 431 4505 | sachindu38@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Backend Developer specialising in **API development with Clean Architecture principles**, with **ASP.NET Core / .NET as the primary stack** and further backend experience across **Spring Boot (Java)**, **NestJS** and **Node.js**. Builds scalable, maintainable services using layered design, dependency injection and repository patterns, including .NET microservices for enterprise ERP systems. Complements backend work with **cross-platform mobile development** in React Native (Expo) and Flutter; with apps published to the Google Play Store, and a full-stack foundation across Next.js, SQL/NoSQL databases, Redis and AWS serverless.

PROFESSIONAL EXPERIENCE

QrioMatrix (Pvt) Ltd

Kottawa, Sri Lanka

Software Engineer Intern

Mar 2026 – Sep 2026

- Contributed to a scalable ERP and POS platform serving restaurants, textiles, optical, and communication businesses, building modules for user management, tax handling, authentication, and role-based access control.
- Integrated **serverless backend services using AWS CDK** and developed the supporting frontend features with Next.js.

CSI Dev Team

Badulla, Uva Province, Sri Lanka

Trainee Backend Developer

Jun 2025 – Mar 2026

- Developed and maintained **backend services and REST APIs** following clean code and structured API design practices.

Nanosoft Solutions (Pvt) Ltd

Kurunegala, Sri Lanka

Intern Mobile/Web Application Developer

Feb 2024 – Aug 2025

- Built **scalable NestJS APIs** powering production cross-platform mobile applications developed with React Native (Expo).
- Delivered a cooperative mobile banking app (QR transactions, payment and SMS gateways) and a two-part agricultural data platform on a unified Node.js backend.

Soft Detroit's (Pvt) Ltd

Battaramulla, Colombo, Sri Lanka

Full Stack Developer

Mar 2023 – Oct 2025

- Engineered **.NET microservices with Clean Architecture** for fingerprint-based biometric authentication using the ZKTeco SDK within an enterprise ERP system, designing layered APIs for maintainability and testability.
- Delivered five full-stack corporate and e-commerce platforms with React.js, Node.js, Express, and MySQL, integrating Redis caching, Twilio SMS, and Nodemailer services sabariholdings.com, saravanaflora.lk, masimpex.lk, gcapitaltrading.com, softdetroit.com.

TECHNICAL SKILLS

Backend & APIs: ASP.NET Core (**primary**), .NET Microservices, Spring Boot (Java), NestJS, Node.js, Express, RESTful API Design

Architecture: Clean Architecture, Layered Design, Dependency Injection, Repository Pattern, Microservices, Caching

Languages: C# (**primary**), Java, JavaScript, TypeScript, Dart, Python, PHP

Databases: MySQL, PostgreSQL, MongoDB, SQL, Redis

Cloud & DevOps: AWS, AWS CDK (Serverless), Docker, Kubernetes, Nginx, Git

Mobile & Frontend: React Native (Expo), Flutter, Google Play Deployment, Next.js, React.js, Tailwind CSS

Integrations: Payment Gateways, SMS Gateways (Twilio), Nodemailer, ZKTeco Biometric SDK

KEY PROJECTS

Cognito ERP – Enterprise Resource Planning System | .NET, ZKTeco SDK, React.js, Node.js, MySQL, Redis | Soft Detroit's In Progress

- Implemented fingerprint-based authentication using the **ZKTeco SDK with .NET microservices designed on Clean Architecture**
- Engineered the supporting backend (Node.js, Express, MySQL) for biometric attendance, payroll, inventory, and finance modules, with Redis caching and Nodemailer payroll distribution; built a responsive React.js UI.

- COOP Digital – Cooperative Banking Mobile App | React Native (Expo), NestJS, Payment & SMS Gateways | Nanosoft Solutions
- Built a **scalable NestJS backend** for a cooperative banking app, prioritising reliability and data security across account, transaction, and activity-tracking services.
 - Delivered the **React Native (Expo) client** with direct and QR-based transactions, integrating payment gateways for secure transfers and SMS gateways for instant notifications.
- Govisarana – Agricultural Community Digital Platform | Next.js, React Native (Expo), Node.js | Nanosoft Solutions
- Built a two-part platform for a rural-farmer data collection initiative (govisarana.org): a **React Native (Expo) app** for secure field submissions plus a Next.js promotional site.
 - Engineered a unified Node.js backend managing collected data and serving both digital properties.
- Thinaya Travels – Tour Booking Platform | Next.js, NestJS, MySQL | Nanosoft Solutions
- Engineered a scalable **NestJS API with MySQL** behind a responsive Next.js frontend, streamlining tour bookings and order management for a Sri Lankan travel agency (thinayatravels.lk).
 - Built an admin portal managing packages, orders, locations, promotional offers, and customer feedback.
- Open Ledger – Treasury Management System | React.js, Node.js, SQL
- Engineered a secure **Node.js API over an SQL database** for organisational financial transactions and budgets, bringing real-time visibility to treasury operations.
 - Built a React.js frontend with dynamic data visualisation for budget and transaction reporting.

RESEARCH

- A cuDNN Approach for Real-Time Classification of EEG Data (BCI for Mouse Control)
- Developed a real-time brain–computer interface (BCI) system classifying EEG signals to enable hands-free computer control.
 - Integrated advanced signal processing with cuDNN-accelerated deep learning models, leveraging the OpenBCI Cyton board for EEG acquisition and translating brain activity into real-time cursor movements for assistive technology applications.

EDUCATION

Uva Wellassa University	Badulla, Sri Lanka
BSc (Honors) in Computer Science & Technology - Current GPA: 3.86	Expected 2026
Nation Victory Campus	Sri Lanka
Diploma in Information Technology; Diploma in English Language	2017
Maris Stella College, Negombo	Negombo, Sri Lanka
G.C.E. Advanced Level - Physical Science Stream	2020

CERTIFICATES

AI/ML Engineer Stage 1, 2 & 3 - University of Moratuwa (UOM) | AWS Essentials - Udemy | Java Basics - HackerRank | SQL Basics - HackerRank

LEADERSHIP & VOLUNTEERING

- President**, Free & Open-Source Community, Uva Wellassa University (2025)
- Webmaster**, IEEE Student Branch, Uva Wellassa University
- Technical Lead**, UVA Xtreme 2024 & UVA Xtreme 1.2 2025 Hackathons
- Coding Team Lead**, SheCoDress v6

ACHIEVEMENTS

- Dean’s List** for Outstanding Academic Performance (2024)
- Finalist**, IEEE Innovation Nation Sri Lanka - Business Stage (Ideation)
- Finalist**, hackX 2022 (Inter-University Start-up Challenge)
- Finalist**, Idealize UOM 2024
